SUMMARY

Full Stack Developer with experience in building scalable web applications using JavaScript, TypeScript, React, Node.js, and Next.js. Proficient in developing RESTful APIs, designing relational and NoSQL databases, and implementing secure authentication using JWT. Skilled in real-time systems, asynchronous task management, and DevOps tools like Docker, Redis, and Kafka. Passionate about clean architecture, UI/UX design, and agile development. Hands-on experience with CI/CD, Prisma ORM, and cloud deployments. Actively contributing to open-source and deploying production-grade applications.

EDUCATION

Haldia Institute of Technology <i>B.Tech in Electrical Engineering (CGPA: 8.0)</i>	West Bengal, India 2021 – Present
Maheshwari Public School <i>Intermediate (Class XI–XII), Percentage: 80%</i>	Rajasthan, India 2021 – 2023

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, C, Bash
Frontend: React, Next.js, TailwindCSS, Framer Motion, EJS
Backend: Node.js, Express, Firebase, REST APIs, JWT
Databases: MongoDB, PostgreSQL
Developer Tools: Git, GitHub, Vite, Postman, Docker, Redis, Kafka, Prisma
Other: Firebase Auth, Chart.js, Figma

PROJECTS

FinAI <i>Next.js, Node.js, MongoDB, Redis, AI APIs, JWT, TailwindCSS</i>	2024
- Developed an AI-powered portfolio advisor from scratch that analyzes live market data and recommends personalized stock picks. - Built secure authentication with JWT; implemented charts, portfolio graphs, and real-time tracking using Redis. - Implemented CI/CD via Vercel and GitHub; followed Agile development practices with weekly iterations.	
Recruitment Management Platform <i>React, Node.js, PostgreSQL, Prisma, Express, JWT</i>	2024
- Designed a full-featured applicant tracking system with recruiter/candidate dashboards, job listings, and resume uploads. - Built secure RESTful APIs with Express, Prisma ORM, PostgreSQL; implemented role-based access control and authentication. - Handled asynchronous email notifications and file uploads using Multer and Nodemailer.	
Campus Taskboard <i>React, Firebase, TailwindCSS, Framer Motion, Realtime DB</i>	2024
- Created a peer-to-peer task management platform for college communities with task posting, filters, and notifications. - Designed dashboard with tabs for task feed, accepted tasks, profiles, and reputation system using Firebase Auth and Firestore. - Live: c-taskboard.web.app GitHub: Campus-Connect	

EXPERIENCE

Web Developer <i>GDG HIT Haldia (Google Developer Group)</i>	Mar 2024 – Present Remote
- Worked in an Agile team to build event pages and dashboards using React, TailwindCSS, and Firebase Hosting. - Contributed to version-controlled repositories on GitHub and deployed static builds via Netlify CI/CD pipelines. - Implemented dynamic forms and integrated API services for hackathon and speaker registration workflows.	
Web Developer <i>HIT Times (Student Media Body)</i>	Jan 2024 – Present Haldia, WB
- Led the revamp of the student media website using React, routing with React Router, and global state with Context API. - Built editor dashboard to manage blog posts, author profiles, and scheduled content publishing with Firebase Auth. - Collaborated with designers on Figma to maintain visual consistency and accessibility across devices.
